

Specifications

1. Material

6061-T6 or equivalent Al core
Total Thickness: 0.040" (1.016 mm)
Dielectric Thickness: 0.003"
Layer 1 – Top Layer, 2 oz copper

2. Hole Plating

N/A

3. Finish

A: Electroless Nickel/Immersion Gold (ENIG)

B: Solder Mask

Liquid Photo Image (LPI)

Electra LPI-White

or Approved Equal

Solder Mask Over Bare Copper (SMOBC)

C: Silk Screen

Black Epoxy Ink, Component Side

4. Tolerances

Overall board dimension tolerance +/- .010

Hole diameter >.100 +/- .005

Hole diameter <=.100 +/- .005
